

What has it taken to get to this point?

To finally expose the complete overbearing and violent nature of SAC Dan Love it took at least one thousand people traveling to a remote section of Nevada at their own cost and peril. Those thousand lives put at risk by the same overbearing.

Some of that thousand, luckily, had "arms" and utilized their second amendment to keep and bear (to be equipt with) those "arms" in such a manner to stop the totally overbearing and illegal behavior. Then two years go by. There is another direct action involving overbearing BLM actions. There are two separate protests each bringing hundreds of people to a remote section of Oregon in the dead of winter at  $-14^{\circ}\text{F}$  weather. Twenty seven people are arrested. One person is killed. Nineteen more are arrested. Four trials are begun and completed. Three out of four juries are at least partially able to see through some of the deception.

The democratic party in Nevada sends out 800,000 flies to help further the deception as the issue becomes partisan. There are mostly "not guilty" verdicts. There are some hung juries. There are a few guilty verdicts. There are multiple "plea bargains". Collectively there are decades of time served and fortunes

lost. Finally, almost four years after the fact, in a fifth trial it finally comes to light what was attempted to be conveyed at the very beginning and this partially due to a whistle blower; because nobody is listening to regular citizens even when more than one thousand of those citizens go out of their own way and into harms way. SHAME!!! on all three branches of government that continue to ignore the outright abuse of its citizens. SHAME!!! on all organizations, institutions, jurisdictions, officers, officials, politicians, clergy, News outlets, governments and regular "joes" that continue to call this "justified".

**FREE Dwight Hammond!!!**

Legislative Branch, did you truly write the 1996 counterterrorism and effective death penalty act so that a rancher spend a five year mandantory minimum in jail?

Executive Branch, is there nothing you can do given the plight of Dwight Hammond given all the supposed checks and balances of three equal branches.

Judicial Branch, who can bring the plight of Dwight Hammond for appeal considering

the situation. He may have waived his right to appeal but if it can happen to him it can happen to me or anyone else that I may know. To whom do "we" appeal?

To all three branches, what does it take? How many people must die and or be arrested for any of you to take notice? I plead for Dwight because at least he lived through his encounters.

Tamar Rice, James Boyd, Frank Gray, Kelly Thomas and many others have not. Black lives matter absolutely because all lives matter. LaVoy's life mattered.

How can so many of these continue to be deemed "justified"? How many five million dollar settlements must be paid?

My wife, my children, not one is worth losing for five million dollars. The thought horrifies and infuriates me. To think of it in real terms should make one physically ill but has become a more and more common reality for many. This is not ok!

How is it any less barbaric than a society that throws innocents into a volcano for the "betterment of society". We once had higher standards of justice than this.

Crime is down. Despite the crime rate falling over decades, especially violent crime, the number of innocent, unarmed individuals killed by LE seems to have risen sharply. Once upon a time the actions of law enforcement mistreating an innocent individual outraged society. Now innocents are killed and the killing quickly "justified" and few bat an eye. I have heard so many say "What can we do?". What can we do indeed!!

Five point nine million dollars will not bring twelve year old Tamir Rice back. Five million dollars will not bring Kelly Thomas back. Twenty million dollars will not bring Laloy back. Good Lord can you imagine if Ammon and Ryan Bundy had been alone in the wash that day? No amount of money would have brought them back from the dead either. You see that while I make these "pleas" to the three branches of government that do nothing and ignore redress of grievances; I also make my plea to the Almighty God..... I thank God they were not alone that day. Only God knows what will cause you three branches of government to listen to these pleas. How much innocent blood must be spilled? Laloy gave his. One of the

Founders said "the blood of patriots and tyrants". Will it truly need to come to that? I have witnessed one thousand innocent people stand boldly prepared to die. I have witnessed one innocent man walk boldly a few steps through deep snow and attempt to stare his death in the face but it came in the back. Meanwhile three branches of government did nothing.

# WHY?!?!?

How long do you believe God will turn a blind eye to the plight of the innocent? It says in the Jewish and Christian Bible that "the earth itself cries out for the blood of the innocent". Our Constitution says "innocent until proven guilty". The innocent blood is piling up. Uhg! If apathy is sown? What will we reap? Society becomes aghast at the reaping and neglects to notice what has been sown. Three branches of government have colluded together to make, enforce and convict so many unconstitutional statutes that "the union" becomes unrecognizable in a couple of decades. What will "we" reap?

It seems worth mentioning at this point that I personally witnessed some of what is mentioned in the "whistle blower" email. The part about the "Command the most intrusive, oppressive, large scale and militaristic trespass cattle impound possible" "excessive use of force" "civil rights" was far more shocking in person than on paper. Experiencing first hand ~~si~~ standing under a sniper location while an announcement of "authorization for use of lethal force has been authorized" against approximately 1,000 people including men, women and children while helicopters and aircraft circle overhead will change you. Sitting on the back steps of an M-Rap surrounded by what looks like soldiers then riding in a convoy of three Lenco Bearcats each with a six man team dressed out in soldierly gear, better than deployed marines riding "lights out" with night vision while the Bearcats play a "hide the shell" game with "the package", me, will change you. It became far too difficult to tell where law enforcement ended and military engagement began. This will change you. Add to that being assaulted in the courtroom and you will find a defendant completely on edge,
